Statement:

I can remember shopping at the Big 5 and remember the dust when the building was removed. The images submitted are from my collection of photos taken over the last 14 years as a resident of downtown Renton. I think the photos will capture the essence of the Renton Farmers Market, Urban Farming, Health and Diversity in the area. When I first heard about the Banner Project, I immediately thought of the movie reel with each frame on the film. So, I decided to submit a couple of collages. I felt it would better represent (1 image of a bouquet vs 3 images of a bouquet) the market theme.

Please Note: I did have several images of vendors with food and serving people, but I pulled them because I was not sure of the policy with printing vendors and people without their permission.

As a resident 1 block from the market, it is very hard not to notice the buzzing of people and music. It is very nice to sit in my backyard with my wife and listen to the music after visiting the market.

Please find my photos attached and should you have any questions, please let me know.

Thank you for your time and consideration.
